Desktops

Veriton L

Handle challenging office tasks and oversee company assets efficiently with the Veriton L Series. Premium components and essential applications ensure top performance, while "green" certification cuts costs and cares for the environment.

Sleek and sophisticated

The streamlined and stylish Veriton L Series occupies a fraction of the real estate of traditional PCs. These Veritons enable great workplace effectiveness, while preserving precious office space.

Control made easy

Acer's exclusive suite of helpful utilities keeps your system safe. Veriton ControlCenter enables trouble-free management of data, power, frequently used programs and other information via a centralized interface, while the Acer Security Suite uses TPM-based data encryption (optional) to protect your files, passwords and other vital data.

Monitor your network

Acer Client Manager simplifies network management. Monitoring hardware/software inventory, publishing rulesets, configuring role-based and scope-based administration, plus other tasks can be done easily and remotely.

The energy-efficient PC

ENERGY STAR®, GS and EPEAT® Silver certifications extend hardware life, cut maintenance costs, and make the Veriton L Series easier to recycle.
